Dr Koray Feran

Dental Surgeon
BDS, MSc, FDSRCS

Miss Sarah Little

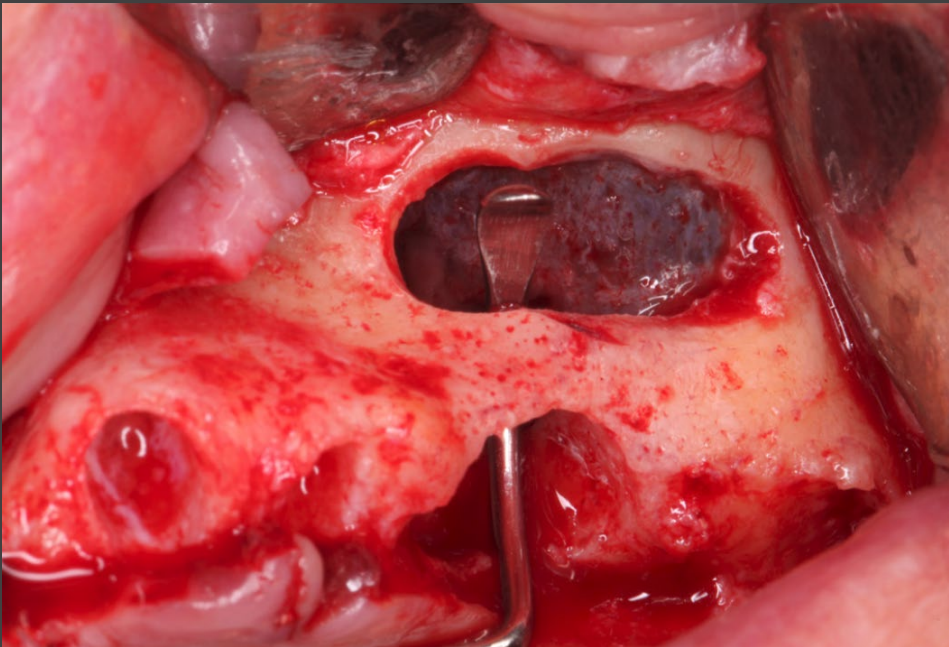

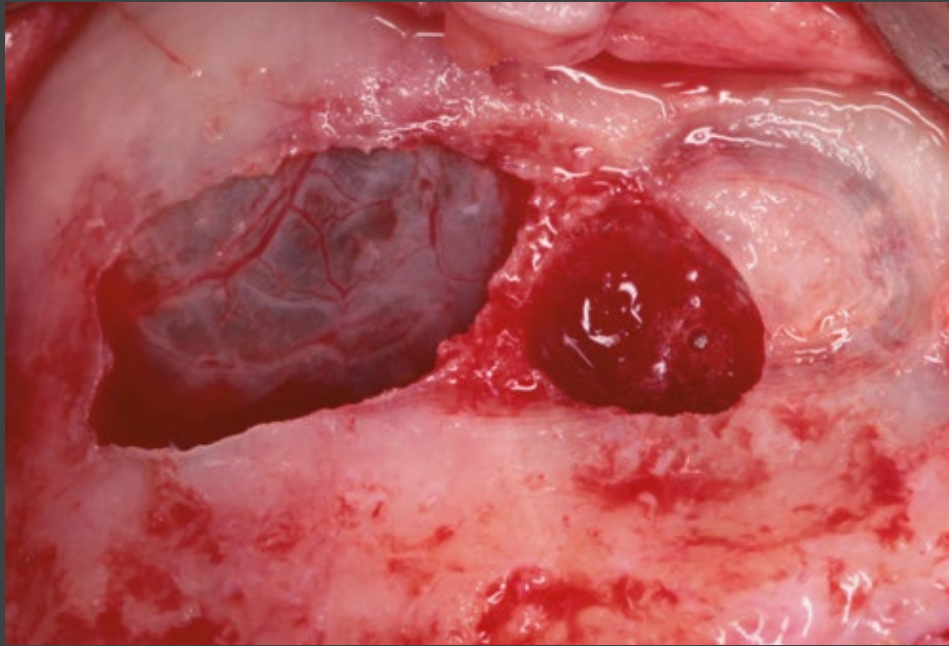

Consultant ENT Surgeon
MBChB, MRCS, FRCSEd,
ORL-HNS, DO-HNS, MPhil

Mr Abbad Toma

Consultant ENT Surgeon
MBBCh, FRCS, FRCS(ORL)

Conceived by **Dr Koray Feran** and supported by Miss Sarah Little and Mr Abbad Toma, this intensive 3-day course is a comprehensive theoretical and practical introduction to advanced sinus and bone augmentation surgery for implant surgeons. The course consists of lectures and hands-on surgical training in sinus and other bone and soft tissue grafting, suturing techniques and live surgeries. This course will cover everything you need to know about advanced bone and soft tissue reconstructive surgery taught by a faculty of eminent dental and ENT experts.

Learning Objectives:

- Develop hands-on knowledge of surgical anatomy of the head and neck and explore implant-related anatomy, vital structures, blood vessels, nerves and tissue spaces on fresh frozen cadavers.
- Develop an understanding of diagnosis and management of sinus diseases and their management.
- Carry out crestal and lateral approach sinus and bone grafting surgery, block augmentation with harvesting technique from chin and ramus and fixation with various techniques.
- Hints and tips to provide predictable results and avoid complications.
- Use of various particulate and membrane biomaterials.
- Learn bonering augmentation technique.
- Learn how to use A-PRF™ technique in bone regeneration.
- Learn to prevent, manage and resolve complications involved with sinus and bone augmentation surgery.

Day 1 - Thursday 1st July 2021

- 08:45 - Course registration
- 09:00 - Dr Feran: Introduction and sinus augmentation
- 10:30 - Coffee break
- 11:00 - Mr Toma and Miss Little: Anatomy in relation to para-nasal sinuses, sinus pathology and ENT perspective
- 12:00 - Lunch
- 13:30 - Dr Feran: Sinus augmentation techniques
- 15:00 - Coffee break
- 15:30 - Dr Feran: Sinus augmentation techniques II and biomaterials
- 18:00 - Questions and day ends.

Day 2 - Friday 2nd July 2021

- 08:45 - 17:00
- Full day practical cadaveric dissection and augmentation techniques practical. Including live demonstrations and hands-on practice of sinus augmentation, block grafting, particulate grafting, use of biomaterials, use of pin and screw fixation and bonering augmentation.

Day 3 - Saturday 3rd July 2021

- 08:30 - Course registration
- 09:00 - Dr Feran: Maxillary sinus augmentation surgery, live interactive surgical demonstration
- 10:30 - Coffee break
- 11:00 - Dr Feran: Maxillary sinus augmentation surgery, live interactive surgical demonstration (continued)
- 12:00 - Lunch
- 13:00 - Dr Feran: Evidence base, consent and medicolegal issues
- 16:30 - Questions, certificates and course end.

Thursday 1st July and Friday 2nd July 2021

St George's University Hospitals NHS Foundation Trust
Blackshaw Road, Tooting, London SW17 0QT

Saturday 3rd July 2021

LCIAD Ltd - London Centre for Implants and Aesthetic Dentistry Ltd
28 Wimpole Street, London W1G 8GW

Testimonials from previous courses:

Fantastic course was recommended to me and I wouldn't hesitate to recommend to anyone wanting to learn about sinus augmentation and other bone grafting techniques. The presentation of information was put forward in a logical way backed up with evidence, to be able to practice these new techniques on cadavers has given me the confidence to be able to apply these skills in practice.

Dr Chris Hanford

Really happy I chose this course over a competitor's. Very useful ENT insight into sinus lifts and how they deal with dental complications. I would highly recommend this course for a broad understanding of sinus lifts, bone grafting, materials, hands-on cadaver experience and dealing with complications.

Dr Neha Khade

I would like to send my thanks and congratulations on a most wonderful course. It is rare that I leave a course with such a gain in knowledge and can honestly say that it is the only course that I have ever attended that has left me with a completely new attitude and enthusiasm toward dentistry.

Dr Jeremy Hill

Very well organised and very high standard of knowledgeable lecturers with excellent experience. Excellent course with very friendly and experienced presenters and backup staff. I would fully endorse this course as it accomplishes exactly what it says it does and is very good value.

Dr Chris King
